## DETAILED ACTION

*Continued Examination Under 37 CFR 1.114*

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/14/2010 has been entered.

*Claim Rejections - 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 25 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 25 has been amended to provide for both the cis and trans isomers, called E and Z. The species depicted in claim 25, and in the specification, all have the CN as trans to the phenyl group. The new claim language now provides for the cis isomers. However, the specification does not describe, say, the cis version of the second claim 25 species, or indeed, any species with the CN in the cis position. In order to claim such a species, the specification must describe it. A claim drawn to a specific species requires description of

Art Unit: 1624

that species, evidence that applicants possessed that particular species. Cf. *In re Ruschig*, 154 USPQ 118; *Fields v. Connover*, 170 USPQ 276, 280; *Watson v. Bersworth*, 116 USPQ 445; *Flynn v. Eardley*, 178 USPQ 288; *Ex parte Westfall*, 223 USPQ 631; *In re Prutton*, 96 USPQ 151; *In re Honn*, 150 USPQ 652; *In re Fried*, 136 USPQ 429. The fact that the species fall within the broader genus is not enough. See MPEP 2163.05(II).

There is no evidence in the specification that applicants possessed such cis species.

All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, THIS ACTION IS MADE FINAL even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
